

Contour Energy Systems Corporate Overview

Headquarters	<p>Contour Energy Systems 1300 West Optical Drive, Suite 300 Azusa, CA 91702 Phone: (626) 610-0660 Fax: (626) 389-5086 Email: info@contourenergy.com www.contourenergy.com</p>
Company	<p>Contour Energy Systems is a next-generation battery company reshaping the portable power industry with breakthrough advancements in battery chemistries, nano-materials science and manufacturing processes. These advancements currently include over 60 patented and patent-pending technologies that leverage exclusive strategic relationships with leading universities, research institutions and OEMs.</p>
Target Market	<p>Contour is initially targeting underserved applications in government and defense, industrial, medical, automotive and portable electronics that hold the greatest profit potential. These targeted applications, which are part of a \$1.5 billion worldwide market for primary batteries, share a common demand for ever-increasing improvements in:</p> <ul style="list-style-type: none">• Price/Performance• Capacity (both Energy Density and Power Density)• Ruggedness (including Operational Temperature Range)• Price/Performance Capacity (both Energy Density and Power Density)• Shelf Life Storage and Recharge Cycles• Safety, Durability and Environmental Impact <p>These improvements support new applications and create new market opportunities for primary batteries today, and offer an accelerated time-to-market for next-generation rechargeable batteries that will also benefit from Contour's patented advancements in battery chemistries, nano-materials and manufacturing processes. The worldwide market for rechargeable batteries is currently over \$10 billion, and is forecast to double by 2013.</p>
Technology	<p>Contour is the only company offering a customizable battery available:</p> <ul style="list-style-type: none">• With a "Tunable Cathode" and novel anode, electrolyte and/or separator materials• In a variety of form factors (coin, cell, film or prismatic)• As either a finished product or a manufacturing license <p>Customization enables batteries to be fully optimized for specific needs across a broad spectrum of portable power applications with the following improvements over existing primary lithium batteries:</p> <ul style="list-style-type: none">• Up to 3X Increase in Energy Density (>700 Wh/Kg)• Up to 8X Increase in Power Density• Operation from -60°C to in excess of 160C

- A Shelf Life of up to 15 Years
- No Overheating or Passivation
- No Heavy Metals or Toxic Chemicals

Management

Joe Fisher, CEO – Over 30 years of successful experience at Energizer Battery where he had held numerous executive management positions

L.C. Chiu, COO – Over 25 years of experience in all aspects of operations as previous CEO of Superprotonic and VP of Operations at E2O Communications

Lee Sailor, VP Finance and Administration – Experienced finance and administrative executive as previous CFO of venture-funded Superprotonic as well as other manufacturing, retail and government contracting companies

Joe Carcone, VP Sales and Marketing – Leveraging his considerable industry experience with Bell Labs, GE, SANYO Energy USA, and VP Sales and Marketing at venture start-up PowerGenix

Simon Lee-Overy, European Managing Director – Experienced sales and operations executive with over 20 years of experience with Energizer, Valence, and his own battery systems company

Dr. Simon Jones, VP of Technology – Over ten years experience in materials research for emerging technologies, including electrochemistry, organic electronics and nanotechnology

Advisors

Dr. Robert Grubbs – Founder and world renowned 2005 Nobel Laureate, Professor of Chemistry at CalTech, and founder of several other high technology materials companies

Dr. Andre Hamwi – Founder and Professor at the University of Blaise-Pascal, Clermont-Ferrands, France with over 30 years of electrochemistry experience, holder of over 30 patents, and a recognized specialist in fluorine

Investors

Contour Energy Systems is privately held with venture funding from CMEA Capital, US Venture Partners, Harris & Harris Group, Schlumberger, EDBI, SBI VenCapital and InQTel

Board of Directors

Maurice Gunderson (Chairman) – Founder of Earth Energy Ventures

Dr. Winston Fu – Senior Partner at US Venture Partners

Dr. Iain Cooper – Technology Advisor in Schlumberger's Mergers & Acquisitions Team

Francois Castaing - Automotive Industry veteran with Chrysler and Renault

Dr. Robert Grubbs - Co-Founder, Nobel Laureate and Advisor

Joe Fisher - CEO

Dr. Jeremy Loh –EDBI West America Director

Kian Hwa Tan – Senior Vice President at SBI VenCapital

Rachel Sheinbein – Partner at CMEA Capital
